### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In paragraph 1, insert after "09/721438," the following: -now U.S. Patent No. **6602527, -.**

### **REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose nor teach a method of preparing green tea into black tea comprising selecting a measure of tea leaves; moistening said tea leaves with an aqueous tyrosinase solution; exposing said tea leaves, once moistened, to an oxidizing agent; and drying said tea leaves to derive black tea. Although the prior art of record does teach processes wherein tyrosinase oxidase is activated, same occurs due from the natural presence of same in the tea itself and as a result of macerating the tea leaves. The instant claims employ an external application of an aqueous tyrosinase solution, and there would be no motivation gleaned from said prior art to do so in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
